

**Word Study: Unit 9**  
**spelling – more consonant clusters (2 and 3)**

In word study this week, we will continue to focus on words with consonant clusters or, as they are more commonly known, “consonant blends”. This week is trickier than last as some consonants are silent (i.e. the “k” in knee) and these blends come both at the beginning and end of words.

Students this week will encounter words with the following clusters:

\_\_\_tch  
kn\_\_\_  
wr\_\_\_
