

Word Study: Unit 36
spelling – review of units 31-35

In word study this week, we will be reviewing Units 31-35. This means that students will only encounter words that they have studied before. Our words will follow a variety of patterns including VCCVs, double consonants and the *augh/ough* patterns.

Students should study all of the assigned words below. They will be *tested on only 18* of them this Friday. Students will not know which 18 until test time, so I recommend reviewing them all.
