

Word Study: Unit 12
spelling – review of units 7-11

In word study this week, we will be reviewing Units 7-11. This means that students will only encounter words that they have already studied. Our words will follow a variety of patterns including short and long vowel sounds as well as consonant blends.

Students should study all of the assigned words below. They will be *tested on only 18* of them this Friday. Students will not know which 18 until test time, so I recommend reviewing them all.
