

Dear K families,

A beautifully decorated envelope came home in your child's gold folder last week.

Thursday, November 3 we have an outreach science program for your students. Cost is \$8.00. It is on campus -therefore no permission slip is required.

The subject is static electricity. The Discovery Center in Thousand Oaks brings us the RAYS (Reading Awakens Young Scientists) program. Name of book this program is based on "The Wartville Wizard" by Don Madden.

Thank you,

Mrs. Carol Brown
